

We only receive quarterly data from GIC's.

Only GG&C (Sandyford) provide separate figures for adults and young people.

The number on the waiting list is at the end of the quarter.

Where no data was received this is indicated in each table with the text 'no data'.

All numbers below 5 are reported as <5 to preserve patient confidentiality, however zero is reported as zero.

Data on the number of new referrals received (added to waiting list) was only collected from Jan-Mar 2019

We do not receive data on number of appointments offered - only the number of patients seen. Prior to Jan-Mar 2019 this was a single figure for both new and returning patients. Since Jan-Mar 2019 separate figures for new and return patients are collected. The figures provided here are for new patients seen.

In the April-June 2020 returns for GG&C it was indicated that a small number of new patients were seen but no figure was provided.

Year	Quarter	GIC	Number on Waiting List
2018	Jan - Mar	Chalmers GIC (Edinburgh)	204
