AAAAA — NURSE INDEPENDENT/SUPPLEMENTARY PRESCRIBER
A Brown
Edinburgh Medical Practice
1 Glasgow Street
EDINBURGH EH1 1AA

NMC No 99X9999X
Tel: 0131 111 1111

03/19

00450045

Callout labels:

- Patient's Full Name
- Patient's Postcode
- Patient's CHI No
- Prescribed Items area
- Barcode area
- Prescriber's Signature (Please ensure the signature is kept within this area only)
- Prescribed Date
- NMC Number
- Contact telephone number for enquiries from dispensing pharmacy
- 5 Alpha Prescriber Code
- Nurse Name and Practice Address

It is vital that the prescriber user profile is set up correctly on the GP IT system.

If there is no unique 5 alpha prescriber code added for the prescriber, the prescriber code area is blank on the printed GP10N(SS) prescription, or if an incorrect prescriber code format, e.g., a GP prescriber code (11111) or a NMC professional registration number (99X9999X) is added, this will be printed in the prescriber code area.

These prescriptions are passed to pharmacy processing staff to add a dummy code for the NHS Board, meaning that the cost of these prescriptions cannot be allocated to your practice.
