 - APPENDIX 2-** BOARD AND COMMITTEE MEMBERSHIP

1 – INTRODUCTION

1.1 National Services Scotland's (NSS) Corporate Governance Framework (CGF) is based on the general principles of the [UK Corporate Governance Code](#) and the [NHS Scotland Health Boards and Special Health Boards – Blueprint for Good Governance \(BGG\) Second Edition](#).

1.2 The [UK Corporate Governance Code](#) defines corporate governance as the system by which organisations are directed and controlled.

1.3 The [NHS Scotland Health Boards and Special Health Boards – Blueprint for Good Governance Second Edition](#) includes a definition of governance in healthcare and has been developed for use by NHS Scotland. This definition has been expressed as:

“Governance is the means by which NHS Boards direct and control the healthcare system to deliver Scottish Government policies and strategies and ensure the long-term success of the organisation. It is the ability to ask questions and make decisions to improve population health and address health inequalities, while delivering safe, effective and high quality healthcare services. It is to be distinguished from executive-led operational management.”

1.4 The Blueprint also identifies ten principles of good governance. These are:

1. Good governance requires the Board to set strategic direction, hold executives to account for delivery, manage risk, engage stakeholders and influence organisational culture.
2. Good governance requires a Board that consists of a diverse group of people with the necessary skills, experience, values, behaviours and relationships.
3. Good governance requires that roles, responsibilities and accountabilities at Board and executive level are clearly defined and widely communicated.
4. Good governance requires an assurance framework that aligns strategic planning and change implementation with the organisation's purpose, aims, values, corporate objectives and operational priorities.
5. Good governance requires an integrated governance system that coordinates and links the delivery of strategic planning and commissioning, risk management, assurance information flows, audit and sponsor oversight.
6. Good governance requires operating guidance that is agreed, documented, widely communicated and reviewed by the Board on a regular basis.

7. Good governance requires regular evaluation of governance arrangements to ensure it is proportionate, flexible and subject to continuous improvement.
 8. Good governance requires an active approach that anticipates and responds to risks and opportunities which could have a significant impact on the delivery of corporate objectives, the Board's relationships with stakeholders and the management of the organisation's reputation.
 9. Good governance requires a collaborative approach that ensures the organisation's systems are integrated or aligned with the governance arrangements of key external stakeholders.
 10. Good governance requires governance arrangements that are incorporated in the organisation's approach to the management of day-to-day operations and the implementation of change.
-
- 1.5 The NSS CGF sets out the governance framework for the organisation. This includes; the **Standing Orders** to regulate conduct of business at the NSS Board and Committee meetings; the **Committee Terms of Reference and Delegated Functions** (ToRs) to define the functions delegated by the Board to each committee; the **Scheme of Delegation** to delegate power to individual officers within the NSS Management Structure; the **Standing Financial Instructions** to provide sound control of financial and related activities; the **Code of Conduct for Board Members** to set out the standards of conduct that Board members must adhere to.
 - 1.6 To meet the expectation in the BGG, and ensure the arrangements are subject to continuous review and development, the CGF will be reviewed annually, as per Standing Orders. The Board and Committee meeting dates for the relevant year will be appended to the CGF.

NATIONAL SERVICE SCOTLAND (NSS) - INTRODUCTION

- 2.1 NSS is a Non-Departmental Public Body (NDPB), accountable to Scottish Ministers. NSS was established as the Common Services Agency in 1974 under The National Health Service (Functions of the Common Services Agency) (Scotland) Order 1974, with a mandate to provide national strategic support services and expert advice to Scotland's health sector whilst maximising health impacts and cost savings.
- 2.2 In 2013, the Public Services Reform (Functions of the Common Services Agency for the Scottish Health Service) (Scotland) Order 2013 extended the remit of NSS enabling the provision of services to other bodies, including local authorities and government departments.
- 2.3 The framework within which NSS operates is agreed with Scottish Government (SG) and is set out within the [Scottish Government – NHS NSS](#)

[Framework Agreement, 2023](#). It defines the key roles and responsibilities which underpin the relationship between NSS and the SG.

2.4 The Scottish Ministers are ultimately accountable to the Scottish Parliament for the activities of NSS and its use of resources. Their responsibilities include:

- agreeing NSS's strategic aims, objectives and key targets as part of the corporate planning process;
- agreeing the budget for NSS, and securing the necessary Parliamentary approval;
- approve the Code of Conduct of the NSS Board;
- approve pay remits or proposals and superannuation arrangements for the staff, Chief Executive, Chair and Board members;
- Lay the accounts of NSS before the Scottish Parliament;

2.5 The roles and responsibilities of the Board and NSS officers are set out within the other sections of the CGF.
