Dear [REDACTED]

We are writing to inform you of an important update regarding the NP38625 Compounded Aseptic Medicines procurement process.

Following a review, we have identified an issue within the standstill communication for one of the lots under this framework. To ensure full compliance with the Public Contracts (Scotland) Regulations 2015 and maintain transparency and fairness, we are reissuing standstill letters for all lots and suppliers. Please note that the standstill period will restart from the date of the revised letter.

The purpose of the standstill letter is to formally notify all relevant parties of the outcome of the evaluation process and to commence the mandatory standstill period, as required under the Public Contracts Regulations 2015.

During this period, no contract award will be concluded, and current arrangements will remain unchanged to allow suppliers the opportunity to review the outcome and raise any queries.

We kindly request that you:

1. Review the contents of the standstill letter carefully and provide acknowledgement.
2. Note the commencement and expiry dates of the standstill period; and
3. Submit any clarification requests in writing within the specified timeframe.

Kindly address all responses or queries to me directly at [REDACTED]@[nhs.scot](mailto: [REDACTED]@nhs.scot) ensuring that correspondence is sent prior to the expiry of the standstill period.

Thank you for your attention to this matter and for your participation in the procurement process.

Kind Regards

[REDACTED]
