Dear Jim

NHS Board Allocation to Support Board Development

NHS Education for Scotland are continuing to assist Scottish Government taking forward a programme of work to support Board Development.

To support this work, I am writing to confirm that we have made arrangements to transfer the following **non-recurring** and **ring fenced** funding by board allocation:

- £85,000 to continue the work of the Aspiring Chair programme; and
- £10,000 for Governance Training.

We also continue to fund a Band 6 post focussing on Board Development and £45,000 has already been transferred as part of the main NES board allocation. This funding is **recurring** and **ring fenced**.

The contacts within NHS Education for Scotland regarding this funding are David Garbutt and [redacted].

Yours sincerely
